# Press Release

December, 2022

Our new Erasmus Plus KA2 Project OMNIA: KnOwledge and Skills DevelopMent on InNovative Green Entrepreneurship Models for NEETs to Build Circular Economy officially started on April 1st 2022 and continued with several virtual meetings.

The meeting brought together all six partners – the project coordinator, FREGUESIA DE VILA BOA DO BISPO, and the project partners, IGEA from Turkey, SC MIXT SOURCE MANAGEMENT SRL from Romania, SOLIDARIDAD SIN FRONTERAS from Spain, SDSN from Belgium and MaltaNOW from Malta.

Partners presented their own organisations. Through our project we aim to develop knowledge and practical skills courses - for NEETs on green and circular economy to build a sustainable future for creating resilient communities.

The knowledge and skills training courses will be given through an e-learning system, a tailored soft skills training and workshops to create opportunities for all to tackle gender gaps in terms of getting equal access to education, training related to the green and circular economy, and develop networking through project activities and networking platform and get information about opportunities like competition, grant and funding which are able to support them to plan, develop and implement their green business' ideas and models in the future and to prepare and help the NEETs to stimulate on developing green and circular economy business model ideas through innovative training courses and expert network consultation with the target around at least 180 participants - 30 participants/partner.

Since the beginning of the project, partners have been working on the completion of intellectual outputs, the creation of visuality for the project, reaching target audiences and interested stakeholders.

The project activities and outputs were presented and intellectual outputs and activities were also discussed during the 1st Transnational Project Meeting (TPM) and other virtual meetings. During the TPM the project coordinator presented management responsibilities and tasks. The partners also agreed on an agenda that would focus on producing quality results.

The project has been successful in the Erasmus+ call and consequently co-funded by the Erasmus+ Programme of the European Union for its 2-years' implementation.
